
Explanation please

On Jan. 1, my friends and I were biking in downtown Fort Worth when we noticed that Heritage Park Plaza was fenced off and closed.

Being surprised that the city would close the park without public comment or input, I did some research to find the reason why the park was barricaded. My initial findings only revealed explanations and reasons that were tissue-thin.

I would like to be enlightened as to why this wonderful piece of our heritage has been closed.

The words "Embrace the spirit and preserve the freedom which inspired those of vision and courage to shape our heritage" are inscribed on the park wall. These words, which were meant to encourage, now makes my heart burn with shame.
